Policy & Strategy Lab

Workbook 10: Capstone

Participant	
Name	
Case (problem statement)	
Decision-making role and decision	
Pod	

How to use this workbook

Each worksheet applies one day's anchor tool to your own case. Complete it during the session and finish it in your independent time. Keep earlier versions: revision is credited, so record what changed and why in the feedback box at the end of each worksheet. Tag every substantive claim in your Analyst's Ledger as fact, inference, assumption or hypothesis.

Competencies practised in this workbook: I4, I5, J2.

Using AI tools. You may use AI tools to suggest structures, rival explanations or improvements to your writing. You may not use AI output as evidence. Every fact, figure, citation and description of an institution must come from a source you have checked.

Worksheet 10.1: Capstone submission

Day 20: The defence. Anchor tool: Panel presentation and defence.

Purpose. Turn the panel's challenge into a stronger final report, and reflect on how your thinking changed.

In brief.

- Lead with the decision you want, and the evidence for it.
- Concede uncertainty honestly; it builds trust.
- The same method revealed different things in each case. That is what transfer looks like.
- You have taken a public problem from a vague concern to a defended recommendation.

Worked example: Madhyapur (a stylised city; figures are illustrative). Madhyapur: the panel's finance officer asks what happens if the cooperative reaches only half the wards. The report adds the sensitivity result (cost per household roughly doubles) and a decision rule at the first quarterly review.

Instructions.

1. Revise your recommendation in response to the panel's questions.
2. Write the client report: 3,500 to 4,500 words, with annexes.
3. Finalise the evidence register and check every citation.
4. Write the 500-word reflection on your sealed answer.
5. Submit everything within 72 hours, with the AI-use disclosure.

Panel questions and my response

Question	My answer on the day	What I will change in the report

Submission checklist

Item	Done
Client report (3,500 to 4,500 words) with annexes	
Full deck (10 to 12 slides)	
Final evidence register, every citation verified	
Reflection on the sealed answer (500 words)	
AI-use disclosure	

Reflection.

1. What changed between your sealed answer and your recommendation, and what caused the change?

2. Which skill from the course did the most work in your case?
3. What would you do differently with another four weeks?

My reflections

Quality checklist.

- ☐ The report answers the decision-maker's question in its first paragraph.
- ☐ Annexes include the issue tree, evidence register, options appraisal, implementation plan and indicator framework.
- ☐ Every citation is verified.
- ☐ The reflection explains what changed and why.

Hand in. Client report, final deck, evidence register, reflection and AI disclosure within 72 hours of the end of Day 20.

Before the next session. Write and submit the capstone within 72 hours. Use the panel's questions: the report should answer each of them.

Feedback and revision

Feedback received (peer or instructor)	What I changed, and why
